### What this standard covers

This standard specifies the requirements for raw materials, sensory, physical and chemical, and hygiene indicators of air freshener aerosols, describes the corresponding test methods, and specifies the inspection rules and marking, packaging, transportation and storage. This standard applies to the production, inspection and sales of aerosol products that are prepared with flavoring agents, solvents, additives, etc. as raw materials, powered by propellants, filled in pressure-resistant containers, and the contents are sprayed in a predetermined form for refreshing the air. This standard does not apply to the production, inspection and sales of metered-valve aerosol products.

### Document data

International classification (ICS): 71.100.35.

Chinese classification (CCS): Y41.

Estimated length of the Chinese original: 9,998 words.
