1 Foreword

QB/T 2612-2003 was issued by Ministry of Industry and Information Technology on 11 December 2003 and has been in force since 1 May 2004.

The QB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies: a single needle, under the composite feed sewing machine head product classification, requirements, test methods, inspection rules and signs, packaging, transportation and storage. This standard applies to: sewing leather, leather, canvas and other thick material products on a single pin, under the compound feed sewing machine head (hereinafter referred to as the "head").

QB/T 2612-2003 falls under ICS 61.080, in the field of clothing industry.

This catalogue holds 308 other QB/T standards in that field.

In this catalogue, QB/T standards carry edition years from 1990 to 2026.
