What this standard covers

This standard specifies the terms and definitions, symbols, codes and abbreviations, classifications, materials, product specifications, requirements, test methods, and inspection rules for ultra-high molecular weight polyethylene (PE-UHMW) pipe (hereinafter referred to as "pipe"). Signs, packaging, transportation and storage. This standard applies to pipes extruded from PE-UHMW as the main raw material. Pipes specified in this standard are suitable for the transport of slurries, powders, granular solids, water, certain corrosive chemical liquids below 45°C, and fluids at low temperatures.

Document data

International classification (ICS): 83.140.30.

Chinese classification (CCS): G33.

Estimated length of the Chinese original: 22,214 words.

Supersedes the earlier edition QB/T 2668-2004.
