Foreword

QB/T 2777-2026 is a recommended industry standard of the People's Republic of China in the Light Industry sector, approved and issued by the Ministry of Industry and Information Technology on 1 June 2026, with effect from 1 December 2026.

This edition replaces QB/T 2777-2015.

It is administered by the National Technical Committee for Pen Standardization.

Classification: ICS 97.180; CCS Y50.

1 Scope

QB/T 2777-2026 applies to marker pens and covers their research and development, production, testing and acceptance. The document is a product standard for this type of writing instrument and serves as a common reference for the stages through which a marker pen passes from development to handover to the buyer.

Marker pen manufacturers, development and quality teams, testing laboratories, distributors and buyers can use it when developing the product, checking production and accepting deliveries. It is a voluntary industry standard (code with /T), approved by the Ministry of Industry and Information Technology and prepared under the National Technical Committee for Pen Standardization. It was issued on 1 June 2026 and takes effect on 1 December 2026. It replaces QB/T 2777-2015.
