What this standard covers

This standard specifies the requirements for appearance, melt flow rate, color batch difference, heat resistance temperature, pressure filtration difference, color fastness after light aging, and limit substances of polypropylene fiber masterbatches. It describes the standard environment for sample conditioning and testing, as well as corresponding test methods, and specifies inspection rules, marking, packaging, transportation, and storage. This document applies to the production, inspection, and sale of masterbatches for fiber applications, made from polypropylene resin as a carrier, with added pigments and additives, through compounding and granulation.

Document data

International classification (ICS): 83.040.30.

Chinese classification (CCS): Y20.

Estimated length of the Chinese original: 20,271 words.

Supersedes the earlier edition QB/T 2893-2007.
