People's Republic of China**

Table of Contents

- 1 Scope
- 2 Principle

1 Scope

This Standard specifies the test method for case and bag fall-down.

This Standard is applicable to various cases and bags of daily use.

2 Principle

Put the specimen bearing specified load at specified height, let it fall down naturally to generate shock oscillation, and inspect perfection degree of such parts as case body (bag body), case opening, fasteners, connections, tie bar, traveling wheel, wheel axle, wheel stand and lock as well as strength of specimen integral structure.
