What this standard covers

This standard specifies the terms and definitions, classification and nomenclature, requirements, test methods, inspection rules, marking, packaging, transportation and storage of purified water processors for household and similar purposes. This standard applies to pure water processors used in households and similar places with municipal tap water or other centralized water supply as raw water. Other processors that can produce pure drinking water may refer to this standard.

Document data

International classification (ICS): 97.180.

Chinese classification (CCS): Y69.

Estimated length of the Chinese original: 38,327 words.

Supersedes the earlier edition QB/T 4144-2010.
