What this standard covers

This standard specifies the requirements for the appearance, dimensions, deviations, shape tolerances, physicochemical properties, and limits of hazardous substances for edge banding strips used in furniture. It describes the corresponding test methods, specifies inspection rules, marking, packaging, transportation, and storage, and provides product classifications for ease of technical specification, defining relevant terminology. This document applies to the design, production, inspection, and sale of various furniture edge banding strips made from plastic, paper, or wood as base materials.

Document data

International classification (ICS): 97.140.

Chinese classification (CCS): Y82.

Estimated length of the Chinese original: 8,885 words.

Supersedes the earlier edition QB/T 4463-2013.
