What this standard covers

This standard specifies the sensory, physicochemical, and contaminant limits for potassium L-lactic acid. It describes the corresponding test methods, specifies the inspection rules, marking, packaging, transportation, and storage, and provides information on product classification, chemical name, molecular formula, relative molecular mass, and structural formula for ease of technical specification. This standard applies to the production, inspection, and sale of potassium L-lactic acid.

Document data

International classification (ICS): 67.180.20.

Chinese classification (CCS): X69.

Estimated length of the Chinese original: 8,856 words.

Supersedes the earlier edition QB/T 4479-2013.
