What this standard covers

This standard specifies the technical requirements for the sensory quality of polyamide yarn for toothbrushes, describes the corresponding test methods, and specifies the inspection rules, marking, packaging, transportation and storage. This standard applies to the production, inspection and sales of toothbrush yarn made of polyamide resin as the main material through melt extrusion.

Document data

International classification (ICS): 83.140.99.

Chinese classification (CCS): Y28.

Estimated length of the Chinese original: 13,183 words.

Supersedes the earlier edition QB/T 4542-2013.
