What this standard covers

This standard specifies the scope, terms and definitions, product classifications, requirements, test methods, inspection rules and marking, packaging, transportation and storage of household and similar use iron (hereinafter referred to as "iron"). This standard applies to household and similar dry-type irons and steam irons with a rated voltage not exceeding 250 V for single-phase appliances, including steam irons with a separate water tank or evaporator with a capacity of not more than 5 liters. This standard does not apply to: iron designed for industrial use; iron ironing machine; corrosive or explosive gases (dust, steam or gas) and other places used in the iron.

Document data

International classification (ICS): 97.06.

Chinese classification (CCS): Y63.

Estimated length of the Chinese original: 17,185 words.
