What this standard covers

This standard specifies the product classification, requirements, inspection rules, marking, packaging, transportation, storage, and instructions for use of disposable heating pads (bags). It describes the corresponding test methods. This standard applies to the production and sale of disposable heating pads (bags) that use iron powder as the main raw material and continuously release heat through an oxidation reaction with air. This standard does not apply to heating pads (bags) used in conjunction with a casing.

Document data

International classification (ICS): 97.180.

Chinese classification (CCS): Y89.

Estimated length of the Chinese original: 15,112 words.

Supersedes the earlier edition QB/T 4903-2016, QB/T 5283-2018.
