What this standard covers

This standard specifies the requirements for dimensional deviations, shape and position tolerances, appearance, physical and chemical properties, mechanical properties, safety, and disassembly/reassembly performance of disassembled tables for exhibitions. It describes the corresponding test methods, specifies inspection rules, marking, instructions for use, packaging, transportation, and storage, and defines relevant terminology. This document applies to the design, production, inspection, and sale of disassembled tables for exhibitions made of metal parts, engineered wood panels, etc.

Document data

International classification (ICS): 97.140.

Chinese classification (CCS): Y81.

Estimated length of the Chinese original: 15,123 words.

Supersedes the earlier edition QB/T 4936-2016.
