What this standard covers

This standard specifies the grades and markings, requirements, test methods, inspection rules and signs, high-carbon steel strips (hereinafter referred to as "steel strips"), and packaging, transportation, storage, and quality certificates. This standard applies to high-carbon steel belts used for manufacturing watch parts whose thickness is not more than 1.0mm and whose width is not more than 50mm. The other steel belts used for precision mechanical parts can also be used as reference.

Document data

International classification (ICS): 39.040.10.

Chinese classification (CCS): Y11.

Estimated length of the Chinese original: 7,729 words.
