Foreword

QB/T 5296-2026 is a recommended industry standard of the People's Republic of China in the Light Industry sector, approved and issued by the Ministry of Industry and Information Technology on 13 February 2026, with effect from 1 September 2026.

This edition replaces QB/T 5296-2018.

Classification: ICS 85.060; CCS Y32.

1 Scope

QB/T 5296-2026 concerns wipe paper towels, the paper towels meant for wiping. It is a product standard and addresses the towel as a finished paper product sold for wiping use. The document is limited to the subject named in its title, Wipe paper towel, without any extension to other tissue or household paper goods. Paper makers, converters and buyers can use it to know which product is meant when a delivery of such towels is agreed.

Paper towel manufacturers, converters, wholesalers, retailers, institutional buyers and testing laboratories are typical users. It is a voluntary standard, as the /T in the code indicates. The Ministry of Industry and Information Technology issued it on 13 February 2026, and it takes effect on 1 September 2026. It replaces the 2018 edition, QB/T 5296-2018.
