What this standard covers

This standard specifies the terms and definitions, classification and model designation, requirements, test methods, inspection rules and signs, transportation, packaging and storage of furfural distillation columns. This standard applies to tower equipment (hereinafter referred to as "products") for the production of industrial furfural using corncob, peanut husk, cottonseed husk, oat husk, bagasse, etc. as raw materials.

Document data

International classification (ICS): 67.260.

Chinese classification (CCS): Y99.

Estimated length of the Chinese original: 12,193 words.
