Foreword

QB/T 5476.10-2026 is a recommended industry standard of the People's Republic of China in the Light Industry sector, approved and issued by the Ministry of Industry and Information Technology on 13 February 2026, with effect from 1 September 2026.

Classification: ICS 67.160.10; CCS X62.

1 Scope

QB/T 5476.10-2026 is Part 10 of the series on fruit wine and covers persimmon wine, the alcoholic drink made from persimmons. It is a product standard that treats persimmon wine as one specific kind of fruit wine, in the same way that other parts of the series treat other fruits. The document keeps to this single product and to the subject given in its title, and it does not take in wines made from other fruits, which have their own parts.

Winemakers and food producers, distributors, importers, buyers and food testing laboratories would refer to it. The standard is voluntary, as the /T in the code shows. The Ministry of Industry and Information Technology issued it on 13 February 2026, and it takes effect on 1 September 2026. It is a new document in the series and does not replace an earlier edition.
