### What this standard covers

This standard specifies the production process, sensory characteristics, physicochemical properties, and net content requirements for lychee wine. It describes the corresponding test methods, specifies inspection rules, marking, packaging, transportation, and storage, and provides a product classification for ease of technical specification. This document applies to the production, inspection, and sale of lychee wine.

### Document data

International classification (ICS): 67.160.10.

Chinese classification (CCS): X62.

Estimated length of the Chinese original: 12,179 words.

Supersedes the earlier edition QB/T 4262-2011.
