### What this standard covers

This standard specifies the requirements, test methods, inspection rules and marking, packaging, transportation and storage of UV light-emitting diode (LED-UV) light-curing offset printing ink products. This standard applies to LED-UV light-curable inks used on offset printing presses, paper and composite materials with LED-UV light-curing devices.

### Document data

International classification (ICS): 87.080.

Chinese classification (CCS): A17.

Estimated length of the Chinese original: 6,626 words.
