What this standard covers

This standard specifies the terms and definitions, evaluation principles, evaluation index system, evaluation requirements, evaluation procedures and evaluation reports of green factory evaluation in the starch sugar industry. This standard is applicable to the evaluation of green factories for enterprises producing anhydrous glucose, glucose monohydrate, glucose syrup, maltose syrup, fructose syrup, crystalline fructose, maltodextrin, fructooligosaccharide, and isomaltoligosaccharide. Other starch sugar product manufacturers can refer to the implementation of green factory evaluation.
