What this standard covers

This standard specifies the materials and technical requirements for oil-resistant coatings for kitchen and bathroom hardware, specifies the corresponding test methods, specifies relevant terms and definitions, and specifies information about classification. This standard applies to the performance evaluation of oil-resistant coatings on the surface of kitchen and bathroom hardware products used in household and similar occasions. Coatings with self-cleaning, easy-cleaning and anti-fingerprint functions can be used as a reference.

Document data

Chinese classification (CCS): Y70.
