What this standard covers

This standard specifies the product classification, requirements, inspection rules, marking, packaging, transportation and storage of polyvinyl chloride (PVC) sheets for heat dissipation and water spraying, and describes the corresponding test methods. This standard is applicable to the production, inspection and sales of base sheets for cooling water towers that are made of polyvinyl chloride (PVC) resin as the main raw material, added with appropriate amounts of additives, and calendered or extruded.

Document data

International classification (ICS): 83.140.10.

Chinese classification (CCS): Y28.
