What this standard covers

This standard specifies the requirements, inspection rules and marking, packaging, transportation and storage of polyvinyl chloride composite fabric membrane material for leisure pools, and describes the corresponding test methods. This standard applies to the production, inspection and sale of leisure pools supported by pipe frames and made of double-sided, multi-layer polyvinyl chloride-coated fabric membranes made of high-frequency welding heat sealing or hot air fusion.

Document data

International classification (ICS): 97.220.40.

Chinese classification (CCS): Y55.

Estimated length of the Chinese original: 11,120 words.
