What this standard covers

This standard specifies the requirements, test methods, inspection rules, marks, packaging, storage, transportation and shelf life of dental wax. The corresponding test methods are described, and relevant terms and definitions are defined. This document is applicable to the production, inspection and sales of wax products used during orthodontics, coated on steel wire brackets or arch wires, to prevent the steel wire from directly rubbing the oral cavity, thereby protecting the oral cavity.

Document data

International classification (ICS): 71.100.40.

Chinese classification (CCS): Y43.

Estimated length of the Chinese original: 8,831 words.
