What this standard covers

This standard specifies the working conditions, basic parameters, requirements, inspection rules, marking, packaging, transportation and storage of pneumatic cutting heads for flexible materials, and describes the corresponding test methods. This standard applies to the production, inspection and sales of pneumatic cutter heads for CNC flatbed cutting machines for cutting flexible materials (leather, artificial leather, mesh, sponge and other non-metallic flexible materials).

Document data

International classification (ICS): 59.14.

Chinese classification (CCS): Y94.
