What this standard covers

This standard specifies the requirements, inspection rules, labeling, packaging, transportation, and storage of imitation human hair flame-retardant fiber springs, describes the corresponding test methods, and defines relevant terms and definitions. This standard applies to the production, inspection and sales of human hair-like flame-retardant fiber clockwork products produced from chemical and regenerated fibers such as polyacrylonitrile, polyester fiber and protein fiber as raw materials.

Document data

International classification (ICS): 59.080.99.

Chinese classification (CCS): W59.

Estimated length of the Chinese original: 9,959 words.
