What this standard covers

This standard specifies the classification, technical requirements, inspection rules, marking, packaging, transportation and storage of household and similar electric steamers, and describes the corresponding test methods. This standard applies to the production, inspection and sale of household and similar electric steamers with a rated voltage not exceeding 250V. Note: Appliances directly connected to the water source, appliances with an internal pressure exceeding 4kPa and appliances operating in areas with an altitude exceeding 1000m are under consideration.

Document data

International classification (ICS): 97.040.20.

Chinese classification (CCS): Y63.

Estimated length of the Chinese original: 23,242 words.
