What this standard covers

This standard specifies the technical requirements for screw-open lids for canned food containers, describes the corresponding test methods, and stipulates inspection rules, marking, packaging, transportation, and storage requirements. It also provides product classification and schematic diagrams to facilitate technical regulations. This standard applies to the production, inspection and sale of screw-open lids for canned food containers made of coated tin (chromium) thin steel sheets.

Document data

International classification (ICS): 67.250.

Chinese classification (CCS): A82.

Estimated length of the Chinese original: 16,120 words.
