What this standard covers

This standard specifies the general principles, sensory, active ingredient volatilization rate and packaging sealing requirements of pyrethroid moth repellents, describes the corresponding test methods, and specifies the inspection rules and marking, packaging, transportation, storage and instructions for use. This standard applies to the production, inspection and sales of moth repellent products with pyrethroids as active ingredients, adsorbent materials as carriers, with or without shells, and sealed film packaging.

Document data

International classification (ICS): 65.100.10.

Chinese classification (CCS): G25.

Estimated length of the Chinese original: 8,867 words.
