What this standard covers

This standard specifies the safety, noise, floor waxing effect, operating radius, appearance and other requirements of floor waxers for household and similar purposes, describes the corresponding test methods, specifies the inspection rules, marking, packaging, transportation and storage, and gives product classifications that are convenient for technical regulations. This standard applies to the production, inspection and sales of electric floor waxers with a single-phase rated voltage not exceeding 250V for use in households and similar occasions. The test of the floor waxing function of other appliances (such as electric mops) is used for reference.

Document data

International classification (ICS): 97.080.

Chinese classification (CCS): Y62.

Estimated length of the Chinese original: 12,164 words.
