### What this standard covers

This standard specifies the assembly, performance, mechanical safety, and electrical safety of the workshop beer mechanical filter rotary sedimentation pot, describes the corresponding test methods, specifies the inspection rules, marking, packaging, transportation and storage, and provides classification and model naming for technical regulations. This standard applies to the design, production, inspection and application of filter rotary sedimentation pots for wort filtration and separation of hot coagulants in workshop beer saccharification equipment.

### Document data

International classification (ICS): 67.260.

Chinese classification (CCS): X99.

Estimated length of the Chinese original: 11,113 words.
