What this standard covers

This standard specifies the electrical safety, appearance, rust prevention, coating firmness, noise, drying function, and cleaning of chopstick cleaning machines, describes the corresponding test conditions and test methods, and specifies inspection rules, marking, packaging, transportation, and storage. This standard applies to the production, inspection, and sales of chopstick machines driven by electricity for use in homes, shops, schools, restaurants, and other similar places. Other appliances with similar functions (smart chopstick tubes, tableware cleaning cabinets, etc.) can be used as a reference. This standard does not apply to chopstick machines for disposable chopsticks.

Document data

International classification (ICS): 97.180.

Chinese classification (CCS): Y69.

Estimated length of the Chinese original: 29,216 words.
