What this standard covers

This standard specifies the appearance, dimensions and permissible deviations, materials and composition requirements for aluminum alloy molecular sieve filters used in household and similar refrigeration appliances. It describes the corresponding test methods and specifies naming rules, inspection rules, marking, packaging, transportation and storage. This standard applies to the design, production, inspection and sale of aluminum alloy molecular sieve filters for household and similar refrigeration appliances.

Document data

International classification (ICS): 97.040.30.

Chinese classification (CCS): Y61.

Estimated length of the Chinese original: 14,184 words.
