What this standard covers

This standard specifies the sensory, physicochemical, and safety requirements for superoxide dismutase (SOD) preparations, describes the corresponding test methods, specifies inspection rules, marking, packaging, transportation, and storage, and provides product classifications for ease of technical specification. This document applies to the production, inspection, and sale of superoxide dismutase (SOD) preparations derived from microbial fermentation and plant tissue extraction. Excipients that aid in product storage, stability, and use may be added to the preparation process.
