Foreword

QB/T 8177-2026 is a recommended industry standard of the People's Republic of China in the Light Industry sector, approved and issued by the Ministry of Industry and Information Technology on 13 February 2026, with effect from 1 September 2027.

This edition replaces SB/T 10617-2011.

Classification: ICS 67.080.10; CCS X24.

1 Scope

QB/T 8177-2026 covers dried and roasted apricot stones and apricot kernels. It is a product standard for apricot stones and apricot kernels, that are sold either dried and raw or cooked by roasting, as stated in its title. The document is one of a group published on the same day, each dealing with one kind of nut or seed, and it keeps to apricot stones and kernels without taking in the other kinds, which have their own documents.

Nut and seed processors, snack manufacturers, traders, importers, buyers and food testing laboratories would use it. The standard is voluntary, as the /T in the code shows. The Ministry of Industry and Information Technology issued it on 13 February 2026, and it takes effect on 1 September 2027. It replaces SB/T 10617-2011.
