### What this standard covers

This standard specifies requirements for the identification, sensory characteristics, physicochemical properties, hygiene, and net content of sodium methyl cocoyl taurate used in toothpaste; describes corresponding test methods; and stipulates rules for inspection, labeling, packaging, transportation, storage, and shelf life. This document applies to the production, inspection, and sales of sodium methyl cocoyl taurate for toothpaste made from fatty acids (and their derivatives) and sodium N-methyltaurate.

### Document data

International classification (ICS): 71.100.40.

Chinese classification (CCS): Y43.

Estimated length of the Chinese original: 14,116 words.
