What this standard covers

This standard specifies the technical conditions, test methods, inspection rules, and marking, packaging, transportation, and storage requirements for cooling water pumps used in fuel cell engines. This standard applies to cooling water pumps used in road vehicles with a maximum operating voltage of Class B for fuel cell engines. Other types of cooling water pumps may refer to this standard.

Document data

International classification (ICS): 43.080.01.

Chinese classification (CCS): T47.
