Foreword

QC/T 644-2026 is a recommended industry standard of the People's Republic of China in the Automotive sector, approved and issued by the Ministry of Industry and Information Technology on 16 April 2026, with effect from 1 November 2026.

This edition replaces QC/T 644-2014.

Classification: ICS 43.060.40; CCS T13.

1 Scope

QC/T 644-2026 is the product standard for metal fuel tanks for automobiles. It sets out the requirements for the tank that stores the fuel on board a vehicle when it is made of metal.

The standard is used by fuel tank manufacturers, automobile makers and their suppliers that specify and buy tanks, and test laboratories. It is a voluntary standard, as the /T in its code shows. It was approved by the Ministry of Industry and Information Technology, issued on 16 April 2026 and takes effect on 1 November 2026. It replaces QC/T 644-2014.
