1 Foreword

QX/T 107-2009 was issued by China Meteorological Administration on 7 June 2009 and has been in force since 1 November 2009.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the definition of winter wheat, rape waterlogging, indicators and their calculation methods, grading, grade naming, the use of methods. This standard is applicable to the investigation, statistics, early warning and evaluation of winter wheat and rape waterlogging in the southern region of China (along the Qinling - Huaihe River and its south).
