1 Foreword

QX/T 11-2023 was issued by China Meteorological Administration on 18 October 2023 and has been in force since 1 February 2024.

It replaces the earlier edition QX/T 11-2002.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

QX/T 11-2023 is filed under Chinese Standard Classification N 95, in the field of instruments and meters.

This catalogue holds 448 other QX/T standards without an ICS number.

In this catalogue, QX/T standards carry edition years from 2001 to 2026.
