1 Foreword

QX/T 111-2010 was issued by China Meteorological Administration on 20 January 2010 and has been in force since 1 June 2010.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 5 pages in English translation.

2 Scope Preview

This standard specifies the impact of weather conditions highway traffic operation level. This standard applies to the transport sector and operational management of highway safety, meteorological departments to carry out highway meteorological monitoring and forecasting service: also applies to the media and traffic information.
