1 Foreword

QX/T 113-2010 was issued by China Meteorological Administration on 20 January 2010 and has been in force since 1 June 2010.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 6 pages in English translation.

2 Scope Preview

This standard specifies the definition of haze, observations and forecasts grade. This standard applies to haze observations, forecasts and services.

QX/T 113-2010 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 269 other QX/T standards in that field.
