1 Foreword

QX/T 2-2016 was issued by China Meteorological Administration on 29 September 2016 and has been in force since 1 March 2017.

It replaces the earlier edition QX 2-2000.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

QX/T 2-2016 is filed under Chinese Standard Classification M 04, in the field of telecommunications and broadcasting.

This catalogue holds 448 other QX/T standards without an ICS number.

In this catalogue, QX/T standards carry edition years from 2001 to 2026.
