1 Foreword

QX/T 21-2015 was issued by China Meteorological Administration on 26 January 2015 and has been in force since 1 May 2015.

It replaces the earlier edition QX/T 21-2004.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the scope, format and content of the annual data files of agricultural meteorological observation records. This standard is applicable to the archiving, storage, management, and digitization of historical data of agricultural meteorological observation records collected from various agricultural meteorological observing stations.

QX/T 21-2015 falls under ICS 07.060, in the field of natural and applied sciences.
