1 Foreword

QX/T 221-2013 was issued by China Meteorological Administration on 22 December 2013.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 9 pages in English translation.

2 Scope Preview

This standard specifies the technical requirements for the location and graphic design, architectural design, indoor environment, safety and protection, construction and electrical construction of the second-class standard meteorological metrology laboratory (hereinafter referred to as the laboratory). This standard applies to the construction of laboratory buildings and supporting facilities.

QX/T 221-2013 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 269 other QX/T standards in that field.

In this catalogue, QX/T standards carry edition years from 2001 to 2026.

3 About this standard

Sector: Chinese Industry Standard (Recommended)

Issued by: China Meteorological Administration

English translation: about 9 pages (approximate)

Chinese original: about 13,130 characters

4 Related standards

Standards on related subjects:

GB/T 33679-2017 - Technical safety requirements of rocket production for rainfall enhancement and hail suppression

GB/T 33673-2017 - Grade of horizontal visibility

DZ/T 0175-2014 - Specifications for Geological Mapping of Coal (1:50000 1:25000 1:10000 1:5000)

QX/T 214-2025 - Greenhouse gas sampling method for stainless steel canisters

QX/T 211-2019 - Technical specifications for inspection of lightning protection system on expressway facilities

QX/T 228-2014 - Classification of regional high temperature weather process

5 Classification and status

International classification (ICS): 07.060

Chinese Standard Classification (CCS): A 47

Prefix QX/T: recommended standard.
