1 Foreword

QX/T 236-2014 was issued by China Meteorological Administration on 25 July 2014 and has been in force since 1 December 2014.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 13 pages in English translation.

2 Scope Preview

This standard specifies the graphical symbols describing the commonly used weather system in the TV weather program, including the shape, color and application of the symbol. This standard applies to the production of television weather programs, websites, mobile phones, Internet TV and other media production weather programs can also refer to the use.
