1 Foreword

QX/T 26-2004 was issued by China Meteorological Administration on 1 November 2004 and has been in force since 1 April 2005.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard specifies the empty box barometer of the technical requirements, test methods, inspection rules and signs, packaging, transportation, storage and so on. This standard applies to continuous record of atmospheric pressure and a weekly diary-type type aneroid barometer (hereinafter referred to as the barometer).

QX/T 26-2004 falls under ICS 07.060, in the field of natural and applied sciences.
