1 Foreword

QX/T 263-2015 was issued by China Meteorological Administration on 26 January 2015 and has been in force since 1 May 2015.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 13 pages in English translation.

2 Scope Preview

This standard specifies the solar photovoltaic system, direct lightning protection, lightning electromagnetic pulse protection and other technical requirements. This standard is applicable to the design and construction of new building, alteration and expansion lightning protection project of solar photovoltaic system installed on ground and photovoltaic building integration. Wind-light complementary power generation system, communication dedicated solar photovoltaic power system can refer to the use of.
