1 Foreword

QX/T 267-2015 was issued by China Meteorological Administration on 26 January 2015 and has been in force since 1 May 2015.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the fog satellite remote sensing monitoring data, monitoring methods and product production requirements. This standard is applicable to the production of fog satellite remote sensing monitoring information extraction and monitoring products.
