1 Foreword

QX/T 350-2016 was issued by China Meteorological Administration on 12 December 2016 and has been in force since 1 May 2017.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 9 pages in English translation.

2 Scope Preview

This standard specifies the classification of credit ratings, evaluation indicators, and scoring methods for meteorological information service companies. This standard applies to meteorological information service enterprise credit evaluation activities.

QX/T 350-2016 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 269 other QX/T standards in that field.
